EDUCATION

University College London, UCL - Computer Science (BSc)

SEP 2019 - PRESENT

I'm currently studying a rigorous but rewarding degree programme of Computer Science at UCL. In addition, it falls under UCL's Integrated Engineering Programme that teaches us crucial skills in a project-based teaching style.

A-Levels, September 2017 – 2019

- Mathematics – A*
- Further Mathematics – A*
- Computer Science – A*

Other:

- (Level 3) Extended Project Qualification – A*
 - *Topic: Computational Complexity; the P vs NP problem.*
- 10 A*-A GCSE Grades, with a Grade 9 in Mathematics and Grade 7 in English Language/Literature

EXPERIENCE

InvestIN Education - University Advisor for Computer Science

DEC 2019

- Technical Knowledge - Helped attendees in setting up their environment, working with git repositories, and understanding how to develop with an open-source voice assistant framework (Samsung's Bixby assistant), that heavily utilises NLP.
- Verbal Communication - Assisted attendees working through JavaScript exercises and gave feedback on their approach.

Sphere Knowledge LTD. - Mathematics Tutor

SEP 2017 - MAR 2018

- Non-verbal Communication - Worked remotely as an online tutor through a tutoring web service, Sphere Knowledge.
- Mathematical Reasoning - Provided mathematics tutoring to clients worldwide up to AS Level (or equivalent) education.

Personal Interests

I enjoy 'hobby-coding' where I complete challenges on programming websites to get high scores and try to develop more efficient algorithms than the other users on the site. In addition, I like undertaking small coding projects and browsing/inspecting other people's open-source projects on Github. I have also played the guitar for 5-6 years.
