EDUCATION

University College London, UCL - *Computer Science (BSc)*

SEP 2019 - PRESENT

I'm currently studying a rigorous but rewarding degree programme of Computer Science at UCL. In addition, it falls under UCL's Integrated Engineering Programme that teaches us crucial engineering skills in a project-based teaching style.

A-Levels, September 2017 – 2019

- Mathematics – A*
- Further Mathematics – A*
- Computer Science – A*

Other:

- (Level 3) Extended Project Qualification – A*
- 10 A*-A GCSE Grades, with a Grade 9 in Mathematics and Grade 7 in English Language/Literature

EXPERIENCE

InvestIN Education - *University Advisor for Computer Science*

DEC 2019

- Assisted with the 'Young Computer Science' programme as a university advisor.
- Helped attendees with JavaScript code, and setting up their environment, while representatives from Samsung demonstrated and taught them how the Bixby voice assistant works and how developers can extend it.

Sphere Knowledge LTD. - *Mathematics Tutor*

SEP 2017 - MAR 2018

- Worked remotely as an Online Tutor through a tutoring web service, Sphere Knowledge.
- Provided mathematics tutoring to clients worldwide up to AS Level (or equivalent) education.

Personal Interests

I enjoy 'hobby-coding' where I complete challenges on programming websites to get high scores and try to develop more efficient algorithms than the other users on the site. In addition, I like undertaking small coding projects and browsing/inspecting other people's open-source projects on Github. I have also played the guitar for 5-6 years.
